

Triple Tuff® BluRoom™

DISASTER RELIEF PANEL SYSTEM

When disaster strikes, Triple Tuff® BluRoom™ mitigates disruptions and facilitates recovery by restoring a sense of order, privacy, and dignity. In often-chaotic surroundings, the lightweight BluRoom divides and organizes the space as needed. BluRoom panels can be used as medical stations, special purpose offices, special needs shelter, and privacy spaces.

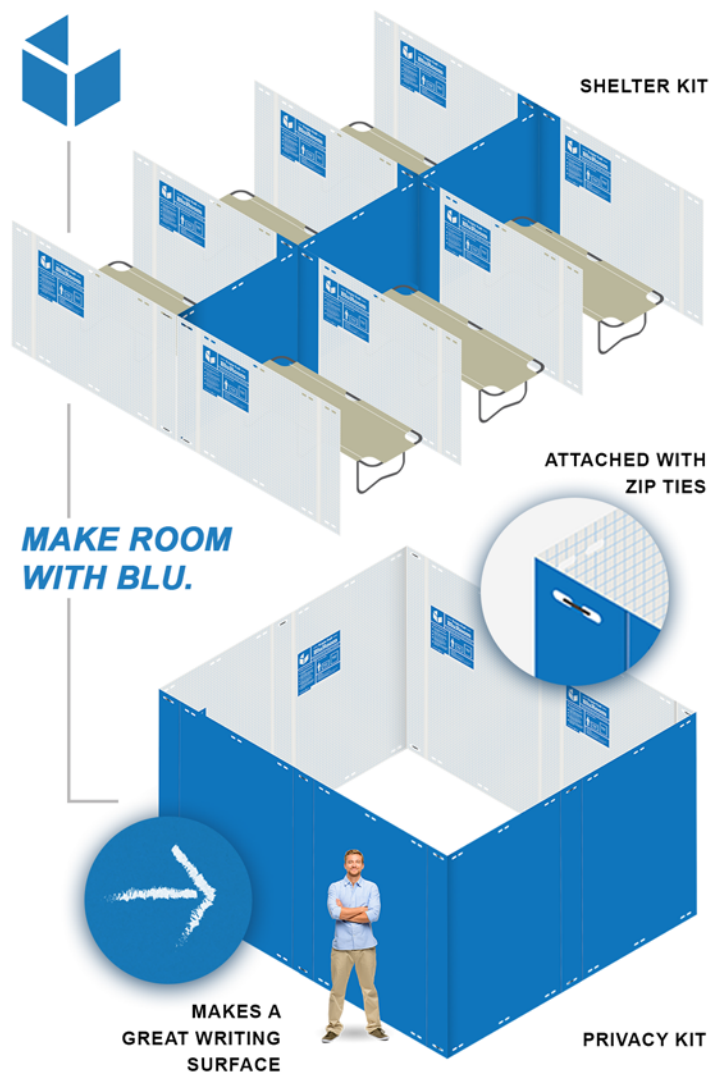

TWO AVAILABLE SIZES

BENEFITS:

- Can be scaled to create area of desired size
- Lightweight and easy to assemble. Panels connect using zip ties, large binder clips, clamps, or tape
- Helps organize arenas, gyms and other shelters
- Made from renewable sources and easily recyclable
- Sturdy, durable and reusable
- Manufactured corners add stability and a curtain on curtain rod adds privacy
- Uses ClimaShield® moisture repellent technology
- Can be written on with chalk to identify disaster relief areas
- Writing/drawing on BluRoom is a great way to occupy kids and others

TRIPLE TUFF[®]

REUSABLE CHALKBOARD

When disaster strikes, disorder and chaos can take over if information is not delivered clearly and effectively. Triple Tuff[®] is a reusable chalkboard that provides an immediate, practical and functional way to communicate and help organize in disaster situations. Its Climashield[®] coating makes it reusable—simply wipe with damp paper towel and modify messaging as quickly as needs and situations may change.

BENEFITS:

- Reusable chalkboard provides immediate signage
- Helps organize and direct in chaotic disaster situations
- Lightweight and portable with easy-carry handle
- Durable, but thin for easy stacking and storage
- Made from renewable resources and recyclable
